

# CAPABILITIES STATEMENT

SealCath, established in 2013 and headquartered in Mount Pleasant, South Carolina, is a Service-Disabled Veteran-Owned Small Business (SDVOSB) specializing in innovative medical devices. Our flagship product, the Cephus Catheter, is the only

FDA-cleared double balloon colorectal catheter available for clinical use. It is designed to create a leak-proof rectal seal, and to enhance the efficiency and efficacy of various medical procedures.

## Core Competencies

- **Innovative Medical Device Development:** Expertise in designing and manufacturing, advanced medical devices that address critical healthcare challenges.
- **Colorectal Procedure Enhancement:** Specialization in improving the safety and effectiveness of colorectal procedures, including barium enema, rectal contrast CT scans, and CT colonography (virtual colonoscopy).
- **Pediatric Care Solutions:** Development of technologies that prevent unnecessary surgeries in pediatric patients, ensuring safer and more efficient care.

## Differentiators

What makes us different from the competition is that WE are the company that designed the SealCath Catheter, the only FDA-cleared double balloon colorectal catheter available for clinical use.

- Over 60 years of technology and medical device application development experience.
- Developed the only FDA-cleared double balloon colorectal catheter available for clinical use.
- State of the Art and first ever double balloon colorectal catheter
- Made-in-America at the US by Velentium, LLC.
- Available in silicone material, which is much more durable and flexible for its use case.

## Past Performance

The Cephus Catheter was introduced to medical professionals in June of 2019. And reintroduced post-pandemic, in 2022.

- Post pandemic 2022, SealCath sold 194 units to Maine Medical Center and Medical University of South Carolina, a total of \$58,200 in sales.
- Post pandemic 2023, SealCath sold 375 units to Banner Thunderbird Medical Center, Omaha Children’s Hospital, Kings Daughter Medical Center, Maine Medical Center, Medical University of South Carolina, and Phoenix Children’s Hospital, a total of \$197,175 in sales.
- Post pandemic 2024, SealCath sold 473 units to Banner Thunderbird Medical Center, Children’s Hospital of Colorado, Kings Daughter Medical Center, Pheonix Children’s Hospital, Maine Medical Center, and Medical University of South Carolina, a total of \$184,025 BUT in only 8 months. Projected minimum sales for all of 2024 would have been \$245,367.

Year over year sales on average grew on average by 131.61%.
